

Choosing What to Study

Little Rock Scripture Study offers a wide variety of courses (or studies), all listed in our catalog or at our website (www.littlerockscripture.org). Some of these courses cover one or more books of the Bible. Others take a more thematic approach and cover a given topic throughout a selection of Bible passages.

The length of each course varies, depending on the topic or book of the Bible being covered. The number of lessons for each course is listed in the catalog or online.
